

Billing made simple. Revenue made right.

AI-powered medical billing.

WWW.PONOMBS.COM

A NOTE BEFORE YOU OPEN

**You may be seeing the
billing problems before
anyone else does.**

Denied claims. Slow reimbursements. Rework that never ends. If billing feels harder than it should, your practice may be losing revenue it never sees.

Open up; here's what to look for, and how PONO helps.

Here is where revenue quietly slips away.

01 **Coding accuracy**

Wrong codes mean denied claims, audits, and liability.

02 **Clean claims rate**

Errors at submission mean delayed or lost revenue.

03 **Denials & rework**

Every rework cycle costs time, money, and staff energy.

04 **AR & collections**

Aging receivables quietly drain practice cash flow.

These gaps are often invisible until someone goes looking.

HOW PONO HELPS

Cleaner claims. Faster cash. Complete peace of mind.

PONO is the AI-powered billing partner built for growth-stage clinics; accurate coding, faster collections, and complete transparency, so doctors can focus on patients, not paperwork.

Accurate

Coding and submissions reviewed with AI assistance.

Faster

Faster turnaround, fewer touches per claim.

Transparent

You always know where every claim stands.

Smart

Scales with you as the practice expands.

WHY PONO

Smaller means faster

Built in 2026 with AI-integrated processes legacy RCM firms can't easily replicate; faster decisions, clearer communication, work that adapts to you.

Simpler, easier, faster; we help you isolate billing mistakes, avoid them in the future, and recover what is missing.

Many clinics find their first wins within the first billing cycle.
