

You may be seeing the billing problems before anyone else does.

THE HIDDEN GAPS

Here is where revenue quietly slips away.

01 Coding accuracy

Wrong codes mean denied claims, audits, and liability.

02 Clean claims rate

Errors at submission mean delayed or lost revenue.

03 Denials & rework

Every rework cycle costs time, money, and staff energy.

04 AR & collections

Aging receivables quietly drain practice cash flow.

These gaps are often invisible until someone goes looking.

HOW PONO HELPS

What PONO does for your practice

More money collected. Faster cash flow. Less staff frustration. Fewer billing headaches. We handle the complex work behind your revenue cycle so your team can focus on patients, not paperwork.

OUR SERVICES

- Medical billing
- Claims management
- Denial resolution
- A/R follow-up
- Payments posted
- Revenue cycle optimization

WHY PONO

Smaller means faster

Personalized account management supported by AI-powered workflows designed for today's healthcare practices.

Simpler, easier, faster; we help you isolate billing mistakes, avoid them in the future, and recover what is missing.

Many clinics find their first wins within the first billing cycle.
